Enriched Social Adult Day Services Program

New York State Office for the Aging

With the approval of the 2008-09 budget, the New York Elder Law was amended to create an enriched social adult day services demonstration project. Under the demonstration, projects selected would be required to provide an enriched package of services in addition to providing services currently required of social adult day services programs. The demonstration project will be evaluated by the Center for Functional Assessment Research at the University at Buffalo to determine how these programs can delay or prevent nursing home placement and the need for other very costly services, while providing vital assistance and support to their informal caregivers. This is a three year demonstration program subject to an annual appropriation.
