MAKE YOUR HOME TRULY FIRE SAFE

Assemblyman Hikind's FIRE PREVENTION/ HOME PROTECTION Event is something you don't want to miss. You'll enjoy an entertaining, informative presentation of life-saving home technology from experts that can protect your loved ones and property.

Attendees will also receive **FREE** state-of-the-art wall outlets and digital timers (courtesy of Sunlite Timers) that will give everyone additional peace of mind on the Sabbath (and every other day, too!)

- Thermal sensor outlets have sensors that auto-shut power to outlets if wires or appliances overheat.
- Arc-sensing outlets auto-shut power to outlets when a spark occurs
- Digital timers afford you the option to not leave appliances (such as warming trays, crock pots, etc.) on for 25 or more hours
- FDNY and licensed electrician will explain vital, often overlooked safety measures, including what to look for in warming trays and similar appliances
