

# BAD MEN

Where your taxes buy  
corruption.

Crooked, self-serving politicians in Albany are funneling your tax dollars to their insider friends.

**THEY ARE WORKING FOR THEMSELVES,  
NOT FOR US!**

Had enough? Government should work for the people, not the career politicians!

Assemblyman Steve Hawley is leading the fight to restore integrity and accountability to government. He sponsors legislation (A.7393, A.4935) that would crack down on corruption and restore public trust in government by:

- Banning public officials convicted of corruption from holding public office, lobbying, or bidding on state contracts;
- Strengthening penalties for corruption, bribery, and improper use of campaign funds; and
- Immediately stripping taxpayer-funded pensions and benefits from all politicians convicted of corruption.
