Such managed care organizations shall utilize such funds for the purpose of reimbursing providers licensed pursuant to article 28 of the public health law or article 31 or 32 of the mental hygiene law for ambulatory behavioral health services, as determined by the commissioner of health, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of the office of mental health, provided to medicaid enrolled outpatients and for all other behavioral health services except inpatient included in New York state's Medicaid redesign waiver approved by the centers for medicare and Medicaid services (CMS). Such reimbursement shall be in the form of fees for such services which are equivalent to the payments established for such services under the ambulatory patient group (APG) rate-setting methodology as utilized by the department of health, the office of alcoholism and substance abuse services, or the office of mental health for rate-setting purposes or any such other fees pursuant to the Medicaid state plan or otherwise approved by CMS in the Medicaid redesign waiver; provided, however, that the increase to such fees that shall result from the provisions of this section shall not, in the aggregate and as determined by the commissioner of health, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of the office of mental health, be greater than the increased funds made available pursuant to this section. The commissioner of health shall, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of mental health, waive such conditions if a sufficient number of providers, as determined by the commissioner, suffer a financial hardship as a consequence of such alternative payment methodology requirements, or if he or she shall determine that such alternative payment methodologies significantly threaten individuals access to ambulatory behavioral health services. Such waiver may be applied on a provider specific or industry wide basis. Further, such conditions may be waived, as the commissioner determines necessary, to comply with federal rules or regulations governing these payment methodologies. Nothing in this section shall prohibit managed care organizations and providers from negotiating different rates and methods of payment during such periods described above, subject to the approval of the department of health. The department of health shall consult with the office of alcoholism and substance abuse services and the office of mental health in determining whether such alternative rates shall be approved. The commissioner of health may, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of the office of mental health, promulgate regulations, including emergency regulations promulgated prior to October 1, 2015 to establish rates for ambulatory behavioral health services, as are necessary to implement the provisions of this section. the laws of 2017, is amended to read as follows:
Section 1. a. Notwithstanding any contrary provision of law, the
commissioners of mental health and alcoholism and substance abuse
services are authorized, subject to the approval of the director of the
budget, to transfer to the commissioner of health state funds to be
utilized as the state share for the purpose of increasing payments under
the medicaid program to managed care organizations licensed under arti-
cle 44 of the public health law or under article 43 of the insurance
law. Such managed care organizations shall utilize such funds for the
purpose of reimbursing providers licensed pursuant to article 28 of the
public health law, or pursuant to article 31 or article 32 of the mental
hygiene law for ambulatory behavioral health services, as determined by
the commissioner of health in consultation with the commissioner of
mental health and commissioner of alcoholism and substance abuse
services, provided to medicaid enrolled outpatients and for all other
behavioral health services except inpatient included in New York state's
Medicaid redesign waiver approved by the centers for medicare and Medi-

such services which are equivalent to the payments established for such
services under the ambulatory patient group (APG) rate-setting methodol-
ogy as utilized by the department of health or by the office of mental
health or office of alcoholism and substance abuse services for rate-
setting purposes or any such other fees pursuant to the Medicaid state
plan or otherwise approved by CMS in the Medicaid redesign waiver;
provided, however, that the increase to such fees that shall result from
the provisions of this section shall not, in the aggregate and as deter-

York, and for all rate periods on and after the effective date of
2017 through March 31, [2020] 2022 for all services provided to persons
under the age of twenty-one; provided, however, the commissioner of
health, in consultation with the commissioner of alcoholism and
substance abuse services and the commissioner of mental health, may
require, as a condition of approval of such ambulatory behavioral health
fees, that aggregate managed care expenditures to eligible providers
meet the alternative payment methodology requirements as set forth in
attachment I of the New York state medicaid section one thousand one
hundred fifteen medicaid redesign team waiver as approved by the centers
for medicaid services. The commissioner of health shall, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of mental health, waive such conditions if a sufficient number of providers, as determined by the commissioner, suffer a financial hardship as a consequence of such alternative payment methodology requirements, or if he or she shall determine that such alternative payment methodologies significantly threaten individuals access to ambulatory behavioral health services. Such waiver may be applied on a provider specific or industry wide basis. Further, such conditions may be waived, as the commissioner determines necessary, to comply with federal rules or regulations governing these payment methodologies. Nothing in this section shall prohibit managed care organizations and providers from negotiating different rates and methods of payment during such periods described, subject to the approval of the department of health. The department of health shall consult with the office of alcoholism and substance abuse services and the office of mental health in determining whether such alternative rates shall be approved. The commissioner of health may, in consultation with the commissioners of mental health and alcoholism and substance abuse services, promulgate regulations, including emergency regulations promulgated prior to October 1, 2013 that establish rates for behavioral health services, as are necessary to implement the provisions of this section. Rates promulgated under this section shall be included in the report required under section 45-c of part A of chapter 56 of the laws of 2013.

b. The commissioner of health shall consult with the commissioner of alcoholism and substance abuse services and the commissioner of the office of mental health in determining such services and establishing such fees. Such ambulatory behavioral health fees to providers available under this section shall be for all rate periods on and after the effective date of this chapter through March 31, 2022, provided, however, that managed care organizations and providers may negotiate different rates and methods of payment during such periods described above, subject to the approval of the department of health. The department of health shall consult with the office of alcoholism and substance abuse services and the office of mental health in determining whether such alternative rates shall be approved. The report required under section 16-a of part C of chapter 60 of the laws of 2014 shall also include the population of patients enrolled in the child health insurance program pursuant to title [one-A] 1-A of article 25 of the public health law in its examination on the transition of behavioral health services into managed care.

§ 4. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, [2019;] 2020; provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, [2019;] 2020, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. The superintendent shall not impose such surcharge during the period commencing July 1, 2009 and ending June 30, 2010. On and after July 1, 1989, the surcharge prescribed by this section shall be retained by insurers to the extent that they insured physicians and surgeons during the July 1, 1985 through June 30, [2019] 2020 policy periods; in the event and to the extent physicians and surgeons were insured by another insurer during such periods, all or a pro rata share of the surcharge, as the case may be, shall be remitted to such other insurer in accordance with rules and regulations to be promulgated by the superintendent. Surcharges collected from physicians and surgeons who were not insured during such policy periods shall be apportioned among all insurers in proportion to the premium written by
each insurer during such policy periods; if a physician or surgeon was
insured by an insurer subject to rates established by the superintendent
during such policy periods, and at any time thereafter a hospital,
health maintenance organization, employer or institution is responsible
for responding in damages for liability arising out of such physician's
or surgeon's practice of medicine, such responsible entity shall also
remit to such prior insurer the equivalent amount that would then be
collected as a surcharge if the physician or surgeon had continued to
remain insured by such prior insurer. In the event any insurer that
provided coverage during such policy periods is in liquidation, the
property/casualty insurance security fund shall receive the portion of
surcharges to which the insurer in liquidation would have been entitled.
The surcharges authorized herein shall be deemed to be income earned for
the purposes of section 2303 of the insurance law. The superintendent,
in establishing adequate rates and in determining any projected defi-
cency pursuant to the requirements of this section and the insurance
law, shall give substantial weight, determined in his discretion and
judgment, to the prospective anticipated effect of any regulations
promulgated and laws enacted and the public benefit of stabilizing
malpractice rates and minimizing rate level fluctuation during the peri-
od of time necessary for the development of more reliable statistical
experience as to the efficacy of such laws and regulations affecting
medical, dental or podiatric malpractice enacted or promulgated in 1985,
1986, by this act and at any other time. Notwithstanding any provision
of the insurance law, rates already established and to be established by
the superintendent pursuant to this section are deemed adequate if such
rates would be adequate when taken together with the maximum authorized
annual surcharges to be imposed for a reasonable period of time whether
or not any such annual surcharge has been actually imposed as of the
establishment of such rates.
§ 5. Section 5 and subdivisions (a) and (e) of section 6 of part J of
chapter 63 of the laws of 2001, amending chapter 266 of the laws of
1986, amending the civil practice law and rules and other laws relating

as summed and adjusted by a statewide cost adjustment factor and reduced
by the sum of all payment amounts collected from such uninsured

compared to the average distribution that each such facility received
for the three calendar years prior to two thousand thirteen pursuant to
this section and section twenty-eight hundred seven-w of this article.

(B) Such regulations shall also establish adjustments limiting the
increases in indigent care pool payments experienced by facilities
pursuant to this subdivision by an amount that will be, as determined by
the commissioner and in conjunction with such other funding as may be
available for this purpose, sufficient to ensure full funding for the
transition adjustment payments authorized by clause (A) of this subpara-

(e) Registrants under this section shall be subject to examination by the superintendent as often as the superintendent may deem it necessary. The superintendent may promulgate regulations establishing methods and procedures for facilitating and verifying compliance with the requirements of this article and such other regulations as necessary to enforce the provisions of this article.

§ 2904. Reporting requirements for pharmacy benefit managers. (a)(1) On or before July first of each year, beginning in two thousand twenty, every pharmacy benefit manager shall report to the superintendent, in a statement subscribed and affirmed as true under penalties of perjury,
the information requested by the superintendent including, without limit-
tation, disclosure of any financial incentive or benefit for promoting
the use of certain drugs and other financial arrangements affecting
health insurers or their policyholders or insureds and any information
relating to the business, financial condition, or market conduct of the
pharmacy benefit manager. The superintendent also may require the filing
of quarterly or other statements, which shall be in such form and shall
contain such matters as the superintendent shall prescribe.

(2) The superintendent also may address to any pharmacy benefit manag-
er or its officers any inquiry in relation to its provision of pharmacy
benefit management services or any matter connected therewith. Every
pharmacy benefit manager or person so addressed shall reply in writing
to such inquiry promptly and truthfully, and such reply shall be, if
required by the superintendent, subscribed by such individual, or by
such officer or officers of the pharmacy benefit manager, as the super-
intendent shall designate, and affirmed by them as true under the penal-
ties of perjury.

(b) In the event any pharmacy benefit manager or person does not
submit the report required by paragraph one of subsection (a) of this
section or does not provide a good faith response to an inquiry from the
superintendent pursuant to paragraph two of subsection (a) of this
section within a time period specified by the superintendent of not less
than fifteen business days, the superintendent is authorized to levy a
civil penalty, after notice and hearing, against such pharmacy benefit
manager or person not to exceed five hundred dollars per day for each
day beyond the date the report is due or the date specified by the
superintendent for response to the inquiry.

(c) All information disclosed by a pharmacy benefit manager shall be
deemed confidential and not subject to disclosure unless the superinten-
dent determines that such disclosure is in the public interest, or is
necessary to carry out this article or to allow the department to
perform examinations or investigations authorized by law.

§ 2905. Acting without a license. (a) No person, firm, association,
corporation or other entity may act as a pharmacy benefit manager on or
after January first, two thousand twenty-one without having authority to
do so by virtue of a license issued in force pursuant to the provisions
of this article.

(b) No health insurer may pay any fee or other compensation to any
person, firm, association, corporation or other entity for performing
pharmacy benefit management services on or after January first, two
thousand twenty-one unless the person, firm, association, corporation or
other entity is licensed as a pharmacy benefit manager in accordance
with this article.

(c) Any person, firm, association, corporation or other entity that
violates this section shall, in addition to any other penalty provided
by law, be subject to a penalty of the greater of (1) one thousand
dollars for the first violation and two thousand five hundred dollars
for each subsequent violation or (2) the aggregate gross receipts
attributable to all violations.

§ 2906. Licensing of a pharmacy benefit manager. (a) The superinten-
dent may issue a pharmacy benefit manager's license to any person, firm,
association or corporation who or that has complied with the require-
ments of this article, including regulations promulgated by the super-
intendent. The superintendent, in consultation with the commissioner of
health, may establish, by regulation, minimum standards for the issuance
of a license to a pharmacy benefit manager.
(b) The minimum standards established under this subsection may address, without limitation:

1. conflicts of interest between pharmacy benefit managers and health insurers;
2. deceptive practices in connection with the performance of pharmacy benefit management services;
3. anti-competitive practices in connection with the performance of pharmacy benefit management services;
4. unfair claims practices in connection with the performance of pharmacy benefit management services; and
5. protection of consumers.

(c)(1) Any such license issued to a firm or association shall authorize all of the members of the firm or association and any designated employees to act as pharmacy benefit managers under the license, and all such persons shall be named in the application and supplements thereto.

(2) Any such license issued to a corporation shall authorize all of the officers and any designated employees and directors thereof to act as pharmacy benefit managers on behalf of such corporation, and all such persons shall be named in the application and supplements thereto.

(3) For each business entity, the officer or officers and director or directors named in the application shall be designated responsible for the business entity's compliance with the insurance laws, rules and regulations of this state.

(d)(1) Before a pharmacy benefit manager's license shall be issued or renewed, the prospective licensee shall properly file in the office of the superintendent a written application therefor in such form or forms and supplements thereto as the superintendent prescribes, and pay a fee of one thousand dollars for each year or fraction of a year in which a license shall be valid.

(2) Every pharmacy benefit manager's license issued to a business entity pursuant to this section shall expire on the thirtieth day of November of even-numbered years. Every license issued pursuant to this section to an individual pharmacy benefit manager who was born in an odd-numbered year, shall expire on the individual's birthday in each odd-numbered year. Every license issued pursuant to this section to an individual pharmacy benefit manager who was born in an even-numbered year, shall expire on the individual's birthday in each even-numbered year. Every license issued pursuant to this section may be renewed for the ensuing period of twenty-four months upon the filing of an application in conformity with this subsection.

(e)(1) If an application for a renewal license shall have been filed with the superintendent before October first of the year of expiration, then the license sought to be renewed shall continue in full force and effect either until the issuance by the superintendent of the renewal license applied for or until five days after the superintendent shall have refused to issue such renewal license and given notice of such refusal to the applicant.

(2) Before refusing to renew any license pursuant to this section for which a renewal application has been filed pursuant to paragraph one of this subsection, the superintendent shall notify the applicant of the superintendent's intention to do so and shall give such applicant a hearing.

(f) The superintendent may refuse to issue a pharmacy benefit manager's license if, in the superintendent's judgment, the applicant or any member, principal, officer or director of the applicant, is not trust-worthy and competent to act as or in connection with a pharmacy benefit
manager, or that any of the foregoing has given cause for revocation or
suspension of such license, or has failed to comply with any prerequi-
site for the issuance of such license.

(g) Licensees and applicants for a license under this section shall be
subject to examination by the superintendent as often as the superinten-
dent may deem it expedient. The superintendent may promulgate regu-
lations establishing methods and procedures for facilitating and verify-
ing compliance with the requirements of this section and such other
regulations as necessary.

(h) The superintendent may issue a replacement for a currently
in-force license that has been lost or destroyed. Before the replacement
license shall be issued, there shall be on file in the office of the
superintendent a written application for the replacement license,
affirming under penalty of perjury that the original license has been
lost or destroyed, together with a fee of one hundred dollars.

§ 2907. Revocation or suspension of a registration or license of a
pharmacy benefit manager. (a) The superintendent may refuse to renew,
may revoke, or may suspend for a period the superintendent determines
the registration or license of any pharmacy benefit manager if, after
notice and hearing, the superintendent determines that the registrant or
licensee or any member, principal, officer, director, or controlling
person of the registrant or licensee, has:

(1) violated any insurance laws, or violated any regulation, subpoena
or order of the superintendent or of another state's insurance commis-
sioner, or has violated any law in the course of his or her dealings in
such capacity;

(2) provided materially incorrect, materially misleading, materially
incomplete or materially untrue information in the registration or
license application;

(3) obtained or attempted to obtain a registration or license through
misrepresentation or fraud;

(4)(A) used fraudulent, coercive or dishonest practices;

(B) demonstrated incompetence;

(C) demonstrated untrustworthiness; or

(D) demonstrated financial irresponsibility in the conduct of business
in this state or elsewhere;

(5) improperly withheld, misappropriated or converted any monies or
properties received in the course of business in this state or else-
where;

(6) intentionally misrepresented the terms of an actual or proposed
insurance contract;

(7) been convicted of a felony;

(8) admitted or been found to have committed any insurance unfair
trade practice or fraud;

(9) had a pharmacy benefit manager registration or license, or its
equivalent, denied, suspended or revoked in any other state, province,
district or territory;

(10) failed to pay state income tax or comply with any administrative
or court order directing payment of state income tax; or

(11) ceased to meet the requirements for registration or licensure
under this article.

(b) Before revoking or suspending the registration or license of any
pharmacy benefit manager pursuant to the provisions of this article, the
superintendent shall give notice to the registrant or licensee and to
every sub-licensee and shall hold, or cause to be held, a hearing not
less than ten days after the giving of such notice.
(c) If a registration or license pursuant to the provisions of this article is revoked or suspended by the superintendent, then the superintendent shall forthwith give notice to the registrant or licensee.

(d) The revocation or suspension of any registration or license pursuant to the provisions of this article shall terminate forthwith such registration or license and the authority conferred thereby upon all sub-licensees. For good cause shown, the superintendent may delay the effective date of a revocation or suspension to permit the registrant or licensee to satisfy some or all of its contractual obligations to perform pharmacy benefit management services in the state.

(e)(1) No individual, corporation, firm or association whose registration or license as a pharmacy benefit manager has been revoked pursuant to subsection (a) of this section, and no firm or association of which such individual is a member, and no corporation of which such individual is an officer or director, and no controlling person of the registrant or licensee shall be entitled to obtain any registration or license under the provisions of this article for a period of one year after such revocation, or, if such revocation be judicially reviewed, for one year after the final determination thereof affirming the action of the superintendent in revoking such license.

(2) If any such registration or license held by a firm, association or corporation be revoked, no member of such firm or association and no officer or director of such corporation or any controlling person of the registrant or licensee shall be entitled to obtain any registration or license, or to be named as a sub-licensee in any such license, under this article for the same period of time, unless the superintendent determines, after notice and hearing, that such member, officer or director was not personally at fault in the matter on account of which such registration or license was revoked.

(f) If any registered or licensed pharmacy benefit manager or any person aggrieved shall file with the superintendent a verified complaint setting forth facts tending to show sufficient ground for the revocation or suspension of any pharmacy benefit manager's registration or license, then the superintendent shall, after notice and a hearing, determine whether such registration or license shall be suspended or revoked.

(g) The superintendent shall retain the authority to enforce the provisions of and impose any penalty or remedy authorized by this chapter against any person or entity who is under investigation for or charged with a violation of this chapter, even if the person's or entity's registration or license has been surrendered, or has expired or has lapsed by operation of law.

(h) A registrant or licensee subject to this article shall report to the superintendent any administrative action taken against the registrant or licensee in another jurisdiction or by another governmental agency in this state within thirty days of the final disposition of the matter. This report shall include a copy of the order, consent to order or other relevant legal documents.

(i) Within thirty days of the initial pretrial hearing date, a registrant or licensee subject to this article shall report to the superintendent any criminal prosecution of the registrant or licensee taken in any jurisdiction. The report shall include a copy of the initial complaint filed, the order resulting from the hearing and any other relevant legal documents.

§ 2908. Penalties for violations. (a) The superintendent, in lieu of revoking or suspending the registration or license of a registrant or licensee in accordance with the provisions of this article, may in any
one proceeding by order, require the registrant or licensee to pay to
the people of this state a penalty in a sum not exceeding the greater of
(1) one thousand dollars for each offense and two thousand five hundred
dollars for each subsequent violation or (2) the aggregate gross
receipts attributable to all offenses.
(b) Upon the failure of such a registrant or licensee to pay the
penalty ordered pursuant to subsection (a) of this section within twenty
days after the mailing of the order, postage prepaid, registered, and
addressed to the last known place of business of the licensee, unless
the order is stayed by an order of a court of competent jurisdiction,
the superintendent may revoke the registration or license of the regis-
trant or licensee or may suspend the same for such period as the super-
intendent determines.
§ 2909. Stay or suspension of superintendent's determination. The
commencement of a proceeding under article seventy-eight of the civil
practice law and rules, to review the action of the superintendent in
suspending or revoking or refusing to renew any certificate under this
article, shall stay such action of the superintendent for a period of
thirty days. Such stay shall not be extended for a longer period unless
the court shall determine, after a preliminary hearing of which the
superintendent is notified forty-eight hours in advance, that a stay of
the superintendent's action pending the final determination or further
order of the court will not unduly injure the interests of the people of
the state.
§ 2910. Revoked registrations or licenses. (a)(1) No person, firm,
association, corporation or other entity subject to the provisions of
this article whose registration or license under this article has been
revoked, or whose registration or license to engage in the business of
pharmacy benefit management in any capacity has been revoked by any
other state or territory of the United States shall become employed or
appointed by a pharmacy benefit manager as an officer, director, manag-
er, controlling person or for other services, without the prior written
approval of the superintendent, unless such services are for maintenance
or are clerical or ministerial in nature.
(2) No person, firm, association, corporation or other entity subject
to the provisions of this article shall knowingly employ or appoint any
person or entity whose registration or license issued under this article
has been revoked, or whose registration or license to engage in the
business of pharmacy benefit management in any capacity has been revoked
by any other state or territory of the United States, as an officer, director,
manager, controlling person or for other services, without the prior written
approval of the superintendent, unless such services are for maintenance
or are clerical or ministerial in nature.
(3) No corporation or partnership subject to the provisions of this
article shall knowingly permit any person whose registration or license
issued under this article has been revoked, or whose registration or
license to engage in the business of pharmacy benefit management in any
capacity has been revoked by any other state, or territory of the United
States, to be a shareholder or have an interest in such corporation or
partnership, nor shall any such person become a shareholder or partner
in such corporation or partnership, without the prior written approval
of the superintendent.
(b) The superintendent may approve the employment, appointment or
participation of any such person whose registration or license has been
revoked.
(1) if the superintendent determines that the duties and responsibilities of such person are subject to appropriate supervision and that such duties and responsibilities will not have an adverse effect upon the public, other registrants or licensees, or the registrant or licensee proposing employment or appointment of such person; or

(2) if such person has filed an application for reregistration or relicensing pursuant to this article and the application for reregistration or relicensing has not been approved or denied within one hundred twenty days following the filing thereof, unless the superintendent determines within the said time that employment or appointment of such person by a registrant or licensee in the conduct of a pharmacy benefit management business would not be in the public interest.

(c) The provisions of this section shall not apply to the ownership of shares of any corporation registered or licensed pursuant to this article if the shares of such corporation are publicly held and traded in the over-the-counter market or upon any national or regional securities exchange.

§ 2911. Change of address. A registrant or licensee under this article shall inform the superintendent by a means acceptable to the superintendent of a change of address within thirty days of the change.

§ 2912. Applicability of other laws. Nothing in this article shall be construed to exempt a pharmacy benefit manager from complying with the provisions of articles twenty-one and forty-nine of this chapter and article forty-nine of the public health law or any other provision of this chapter or the financial services law.

§ 2913. Assessments. Pharmacy benefit managers that file a registration with the department or are licensed by the department shall be assessed by the superintendent for the operating expenses of the department that are solely attributable to regulating such pharmacy benefit managers in such proportions as the superintendent shall deem just and reasonable.

through the offering of contracts that comply with this paragraph by
another corporation, insurer or health maintenance organization within
the corporation’s same holding company system, as defined in article
fifteen of this chapter.

The administrator shall from time to time adjust such calculation in accordance with subdivision seven of this section. If the total of all estimates of current liabilities equals or exceeds eighty percent of the fund's assets, then the fund shall not accept any new enrollments until a new deposit has been made pursuant to subdivision five of this section. The plaintiff's or claimant's future medical expenses shall be paid in accordance with this title. When such a settlement agreement does not so provide, the court shall direct the modification of the agreement to include such term as a condition of court approval.

(b) In any case where the jury or court has made an award for future medical expenses arising out of a birth related neurological injury, any party to such action or person authorized to act on behalf of such party may make application to the court that the judgment reflect that, in lieu of that portion of the award that provides for payment of such expenses, [and upon a determination by the fund administrator that the plaintiff is a qualified plaintiff,] the future medical expenses of the plaintiff shall be paid out of the fund in accordance with this title. Upon a finding by the court that the applicant has made a prima facie showing that the plaintiff is a qualified plaintiff, the court shall ensure that the judgment so provides.

7. A qualified plaintiff shall be enrolled when (a) such plaintiff or person authorized to act on behalf of such person, upon notice to all defendants, or any of the defendants in regard to the plaintiff's claim, upon notice to such plaintiff, makes an application for enrollment by providing the fund administrator with a certified copy of the judgment or of the court approved settlement agreement; and (b) the fund administrator determines [upon the basis of such judgment or settlement agreement and any additional information the fund administrator shall request] that the relevant provisions of subdivision six of this section have been met [and that the plaintiff is a qualified plaintiff]; provided that no enrollment shall occur when the fund is closed to enrollment pursuant to subdivision six of section twenty-nine hundred ninety-nine-i of this title.

9. Payments from the fund shall be made by the commissioner of taxation and finance on the said certificate of the [superintendent of
financial services] commissioner. No payment shall be made by the commissioner of taxation and finance in excess of the amount certified. Promptly upon receipt of the said certificate of the [superintendent of financial services] commissioner, the commissioner of taxation and finance shall pay the qualified plaintiff's health care provider or reimburse the qualified plaintiff the amount so certified for payment.

11. PART R

Section 1. Legislative findings and intent. The legislature finds that maternal mortality and morbidity is a serious public health concern and has a serious family and societal impact. New York state has among the highest maternal mortality rates in the country and racial disparities remain significant. The U.S. Centers for Disease Control and Prevention has determined that a regular process for professional, multi-disciplinary, confidential review of all maternal deaths can help identify the causes of maternal mortality, and those findings can lead to clinical and social change that can help prevent maternal mortality. The same is true for severe maternal morbidity. Confidentiality is important to ensure that full information is made available in the review process to maximize protection of maternal health.

Section 3 of article 17 of the state constitution states: "The protection and promotion of the health of the inhabitants of the state are matters of public concern and provision therefor shall be made by the state and by such of its subdivisions and in such manner, and by such means as the legislature shall from time to time determine." The legislature finds that the creation of a state maternal mortality review board, and recognition and protection of any maternal mortality review
board, including a New York city maternal mortality review board, are a matter of state concern and an important exercise of the legislature's constitutional mandate to protect the public health.

§ 2. The public health law is amended by adding a new section 2509 to read as follows:

§ 2509. Maternal mortality review board. 1. (a) There is hereby established in the department the maternal mortality review board for the purpose of reviewing maternal deaths and severe maternal morbidity and developing findings, recommendations, and best practices to the commissioner to contribute to the prevention of maternal mortality and severe maternal morbidity. The board shall assess the cause of death, factors leading to death and preventability for each maternal death reviewed and, at the discretion of the board, cases of severe maternal morbidity, and shall develop strategies for reducing the risk of maternal mortality and severe maternal morbidity, where cases of severe maternal morbidity were reviewed, taking into account factors such as racial, economic, or other disparities. The boards' findings, recommendations and best practices shall be given to the commissioner for dissemination.

(b) Any maternal mortality review board, including a New York city maternal mortality review board, shall provide to the commissioner the results and the findings of its reviews, including recommendations and best practices and upon request information and data, including case summaries, to support statewide surveillance and enforcement.

2. As used in this section:

(a) "Advisory council" and "council" mean the advisory council on maternal mortality and severe maternal morbidity, established under this section.

(b) "Board" means a maternal mortality review board established by this section, referred to in this section as the "state board", or any board operating, including a New York city maternal mortality review board, under this section.

(c) "Maternal death" means the death of a woman during pregnancy or within a year from the end of pregnancy.

(d) "Severe maternal morbidity" means unexpected outcomes of pregnancy, labor, or delivery that result in significant short- or long-term consequences to a woman's health.

3. (a) The members of the state board shall be comprised of multidisciplinary experts in the field of maternal mortality, women's health and public health, and shall include health care professionals and other experts who serve and are representative of the racial and ethnic diversity of the women and mothers of the state.

(b) The state board shall be composed of at least fifteen members, all of whom shall be appointed by the commissioner.

(c) The terms of the state board members shall be three years. The commissioner may choose to reappoint state board members to additional three year terms.

(d) A majority of the appointed membership of the state board, no less than three, shall constitute a quorum.

(e) When any member of the state board fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.

(f) Meetings of the state board shall be held at least twice a year but may be held more frequently as deemed necessary, subject to request of the department.
(g) Members of the state board shall be indemnified under section seventeen of the public officers law.

(h) Members of the state board shall not be compensated for their participation on the board but may receive reimbursement for their ordinary and necessary expenses of participation.

(i) Membership on a board shall not disqualify any person from holding any public office or employment.

(j) The board is not subject to Article 7 of the public officers law.

4. (a) The commissioner shall receive upon request from any department, division, board, bureau, commission, local health departments or other agency of the state or political subdivision thereof or any public authority, as well as hospitals established pursuant to article twenty-eight of this chapter, birthing facilities, medical examiners, coroners and coroner physicians and any other facility providing services associated with maternal mortality, such information, including, but not limited to, death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records and any other information.

(b) The commissioner shall receive information, including oral or written statements, relating to any maternal death and case of severe maternal morbidity, from any family member or other interested party (including the patient in a case of severe maternal morbidity) relating to any case that may come before the board. Oral statements received under this paragraph shall be transcribed or summarized in writing. The commissioner and the city commissioner shall transmit that information to the board considering the case.

(c) Before transmitting any information to the board, the commissioner shall remove all personal identifying information of the woman, health care practitioner or practitioners or anyone else individually named in such information, as well as the hospital or facility that treated the woman, and any other information such as geographic location that may inadvertently identify the woman, practitioner or facility. This paragraph shall not preclude the transmitting of information to the board that is reasonably necessary to enable the board to perform an appropriate review under this section.

5. Each board:

(a) shall make and report findings, recommendations and best practices to the commissioner regarding the cause of death, factors leading to death, and preventability of each maternal death case, and each case of severe maternal morbidity reviewed by the board, by reviewing relevant information for each case and consulting with experts as needed to evaluate the information for each death; and shall provide such de-identified findings and recommendations, including best practices and strategies for reducing the risk of maternal mortality and severe maternal morbidity, to the advisory council; provided that material provided to the advisory council shall not include any information that would be confidential under this section;

(b) shall develop recommendations to the commissioner for areas of focus, including issues of severe maternal morbidity and issues of racial, economic or other disparities in maternal outcomes;

(c) may, in addition to the findings, recommendations, and best practices made under this subdivision, and consistent with all applicable confidentiality protections, bring any particular matter to the attention of the commissioner;
(d) the state board shall issue a report every other year to the commissioner on its findings, recommendations, and best practices, and it shall be a public document.

6. The commissioner and boards shall each keep confidential any information collected or received under this section that includes personal identifying information of the woman, health care practitioner or practitioners or anyone else individually named in such information, as well as the hospital or facility that treated the woman, and any other information such as geographic location that may inadvertently identify the woman, practitioner or facility, and shall use the information provided or received under this section solely for the purposes of improvement of the quality of health care of women and to prevent maternal mortality and severe maternal morbidity. This subdivision shall not preclude the transmitting of information to the board that is reasonably necessary to enable the board to perform an appropriate review under this section. All information and records received, meetings conducted, reports and records made and maintained and all books and papers obtained by the commissioner as well as the board shall be confidential and shall not be made open or available, including under article six of the public officers law, and shall be limited to board members as well as those authorized by the commissioner. Such information shall not be discoverable or admissible as evidence in any action in any court or before any other tribunal, board, agency or person.

7. (a) There is hereby established in the department an advisory council on maternal mortality and severe maternal morbidity.

(b) The advisory council:

(i) may review the findings, recommendations and best practices of the boards;

(ii) may use the boards findings, recommendations and best practices to develop recommendations on policies, best practices, and strategies to prevent maternal mortality and severe maternal morbidity;

(iii) may hold public hearings on those matters; and

(iv) may make findings and issue reports, including an annual report, on such matters;

(c) The advisory council shall consist of at least twenty members, representative of the racial and ethnic diversity of the women and mothers of the state to be determined by the commissioner. Ten of the members of the council shall be representative of the population and health care system of the city of New York. The commissioner shall appoint the chair of the council.

(d) The members of the council shall be comprised of multidisciplinary experts and lay persons knowledgeable in the field of maternal mortality, women's health and public health and shall include members who serve and are representative of the diversity of the women and mothers in medically underserved areas of the state or areas of the state with disproportionately high occurrences of maternal mortality or severe maternal morbidity.

(e) The terms of the council members shall be three years. The commissioner may choose to reappoint council members to additional three-year terms. Vacancies on the council shall be filled by appointment by the commissioner. A majority of the appointed membership of the council shall constitute a quorum. When any member of the council fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.

(f) Meetings of the council shall be held at least twice a year.
(g) Members of the council shall be indemnified under section seventeen of the public officers law. Members of the council shall not be compensated for their participation on the council but shall receive reimbursement for their ordinary and necessary expenses of participation. Membership on the council shall not disqualify any person from holding any public office or employment.

§ 3. This act shall take effect immediately.

PART S

Section 1. Legislative intent. The legislature finds that comprehensive reproductive health care, including contraception and abortion, is a fundamental component of a woman's health, privacy and equality. The New York Constitution and United States Constitution protect a woman's fundamental right to access safe, legal abortion, courts have repeatedly reaffirmed this right and further emphasized that states may not place undue burdens on women seeking to access such right.

Moreover, the legislature finds, as with other medical procedures, the safety of abortion is furthered by evidence-based practices developed and supported by medical professionals. Abortion is one of the safest medical procedures performed in the United States; the goal of medical regulation should be to improve the quality and availability of health care services.

Furthermore, the legislature declares that it is the public policy of New York State that every individual possesses a fundamental right of privacy and equality with respect to their personal reproductive decisions and should be able to safely effectuate those decisions, including by seeking and obtaining abortion care, free from discrimination in the provision of health care.

Therefore, it is the intent of the legislature to prevent the enforcement of laws or regulations that are not in furtherance of a legitimate state interest in protecting a woman's health that burden abortion access.

§ 2. The public health law is amended by adding a new article 25-A to read as follows:

ARTICLE 25-A

REPRODUCTIVE HEALTH ACT

Section 2599-aa. Policy and purpose.

§ 2599-aa. Policy and purpose. The legislature finds that comprehensive reproductive health care is a fundamental component of every individual's health, privacy and equality. Therefore, it is the policy of the state that:

1. Every individual has the fundamental right to choose or refuse contraception or sterilization.

2. Every individual who becomes pregnant has the fundamental right to choose to carry the pregnancy to term, to give birth to a child, or to have an abortion, pursuant to this article.

3. The state shall not discriminate against, deny, or interfere with the exercise of the rights set forth in this section in the regulation or provision of benefits, facilities, services or information.

§ 2599-bb. Abortion. 1. A health care practitioner licensed, certified, or authorized under title eight of the education law, acting within his or her lawful scope of practice, may perform an abortion when, according to the practitioner's reasonable and good faith professional judgment based on the facts of the patient's case: the patient is within
twenty-four weeks from the commencement of pregnancy, or there is an
absence of fetal viability, or the abortion is necessary to protect the
patient's life or health.

Provided, however, the insurer shall only deny coverage for any portion of the initial [fourteen] twenty-one day inpatient treatment on the basis that such treatment was not medically necessary if such inpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. An insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(iv) "substance use disorder" shall have the meaning set forth in the most recent edition of the diagnostic and statistical manual of mental disorders or the most recent edition of another generally recognized independent standard of current medical practice, such as the international classification of diseases.
(G) An insurer shall provide coverage under this paragraph, at a minimum, consistent with the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (29 U.S.C. § 1185a).

include a review of all services provided during such outpatient treat-

of continuous treatment, not to exceed [fourteen] twenty-one visits, of
such outpatient treatment. Provided, however, the insurer shall only
deny coverage for any portion of the initial [two] three weeks of
continuous treatment, not to exceed [fourteen] twenty-one visits, for
outpatient treatment on the basis that such treatment was not medically
necessary if such outpatient treatment was contrary to the evidence-
based and peer reviewed clinical review tool utilized by the insurer
which is designated by the office of alcoholism and substance abuse
services. An insured shall not have any financial obligation to the
facility for any treatment under this subparagraph other than any copay-
ment, coinsurance, or deductible otherwise required under the policy.

(F) The criteria for medical necessity determinations under the policy
with respect to outpatient substance use disorder benefits shall be made
available by the insurer to any insured, prospective insured, or in-net-

most recent edition of the diagnostic and statistical manual of mental
disorders or the most recent edition of another generally recognized
independent standard of current medical practice such as the interna-
tional classification of diseases.
(H) An insurer shall provide coverage under this paragraph, at a mini-
mum, consistent with the federal Paul Wellstone and Pete Domenici Mental
§ 7. Paragraph 31-a of subsection (i) of section 3216 of the insurance
law, as added by section 1 of part B of chapter 69 of the laws of 2016,
is amended to read as follows:
(31-a) [(A)] Every policy that provides medical, major medical or
similar comprehensive-type coverage and provides coverage for
prescription drugs for medication for the treatment of a substance use

serious jeopardy, or in the case of a behavioral condition, placing the
health of such person or others in serious jeopardy;
(ii) serious impairment to such person's bodily functions;
(iii) serious dysfunction of any bodily organ or part of such person;

(v) a condition described in clause (i), (ii), or (iii) of section
1867(e)(1)(A) of the Social Security Act.

(C) Coverage provided under this paragraph may be subject to copay-
ments, coinsurance, and annual deductibles that are consistent with
those imposed on other benefits within the policy; provided, however, no
policy shall impose an additional copayment or coinsurance on an insured
who received an emergency supply of medication and then received up to a
thirty day supply of the same medication in the same thirty day period
in which the emergency supply of medication was dispensed. This subpara-
graph shall not preclude the imposition of a copayment or coinsurance on
the initial emergency supply of medication in an amount that is less
than the copayment or coinsurance otherwise applicable to a thirty day
supply of such medication, provided that the total sum of the copayments
or coinsurance for an entire thirty day supply of the medication does

Any utilization review of the treatment provided under this subparagraph may include a review of all services provided during such outpatient treatment, including all services provided during the first [two] three weeks of continuous treatment, not to exceed [fourteen] twenty-one visits, of such outpatient treatment. Provided, however, the insurer shall only
deny coverage for any portion of the initial three weeks of
continuous treatment, not to exceed fourteen twenty-one visits, for
outpatient treatment on the basis that such treatment was not medically
necessary if such outpatient treatment was contrary to the evidence-
based and peer reviewed clinical review tool utilized by the insurer
which is designated by the office of alcoholism and substance abuse
services. An insured shall not have any financial obligation to the
facility for any treatment under this subparagraph other than any copay-

(ii) serious impairment to such person's bodily functions;

(iii) serious dysfunction of any bodily organ or part of such person;

[Coverage for applied behavior analysis shall be subject to a maximum benefit of six hundred eighty hours of treatment per policy or calendar year per covered individual.] This paragraph shall not be construed as limiting the benefits that are otherwise available to an individual under the group or blanket policy, provided however that such policy shall not contain any limitations on visits that are solely applied to the treatment of autism spectrum disorder. No insurer shall terminate coverage or refuse to deliver, execute, issue, amend, adjust, or renew coverage to an individual solely because the individual is diagnosed with autism spectrum disorder or has received treatment for autism spectrum disorder. Coverage shall be subject to utilization review and external appeals of health care services pursuant to article forty-nine of this chapter as well as[,] case management[,] and other managed care provisions.
