

Protecting Our Water, Protecting Our Future

A Message from

JARETT 
GANDOLFO
ASSEMBLYMAN

Committed to
the Continued
Protection of
Long Island's
Environment

Long Island's shores and waterways define who we are. Protecting this unique environment for future generations is a priority, and I'm proud to be working with partners who share that mission.

How I'm working to provide clean water for Long Island:

- ✓ **Protect Our Drinking Water**
Establish the Drinking Water Quality Institute, convening experts to study contaminants and identify potential threats to our water. (A.4571)
- ✓ **Keep Our Bay Clean**
Bring an end to the harmful practice of dumping waste into the Great South Bay and Long Island Sound (A.4221)

I voted yes in the 2026-27 budget to:

- ✓ **Improve Clean Water Infrastructure**
\$750 million for water infrastructure improvement projects. (A.10004-D)
- ✓ **Invest in the Environmental Protection Fund**
\$425 million for environmental protection projects. (A.10004-D)

Resources:

Suffolk County Water Resources

Provides water testing, septic system guidance, and public health protections.

Long Island Commission for Water Protection

A free online database to check Long Island drinking and groundwater quality.
