

A report to the 25th Assembly District from  
**ASSEMBLYWOMAN  
NILY ROZIC**

January 2018

## Kicking Off the 241<sup>st</sup> Legislative Session

With the New Year comes the new legislative session. I am back in Albany ready to get to work and continue advocating for the needs of the 25th Assembly District. From transportation to education to workplace rights, there is no issue too large or too small for us to tackle!

## Bringing Resources to You!

Over 75 community members were able to speak directly with representatives of five city agencies right here in my district office. As always, if you have any concerns and require assistance, feel free to stop by my office Monday-Friday 10am-5pm.

## Celebrating Educational Excellence

I am delighted to extend my congratulations to Emily Ramprashad of John Bowne High School on her selection as a nominee for the Career and Technical Education for the 2018 Presidential Scholars Program! Queens students as talented and hardworking as Emily deserve recognition by New York State, and I thank Commissioner Elia and John Bowne High School for elevating and nurturing one of our best and brightest.

## Teaming Up with The New York Knicks

In November, I partnered with the New York Junior Knicks to offer free basketball clinics at P.S. 120. More than 40 students were able to hone their skills with former Knicks forward John Wallace in the clinics. As we strive to increase learning opportunities for students across the community, diverse team-based extracurricular programs both inside and outside the classroom must become an integral investment.

## Fighting for Queens' Aging Community

Following recent news of funding cuts to nine Naturally Occurring Retirement Community (NORC) programs across the state, including two in Queens, I spoke out for our seniors. Thankfully, the New York State Department for the Aging has reversed the decision and will continue to fund our local NORC programs. I am committed to advocating for our seniors to ensure they have access to the services and resources that allow them to continue living in their communities.
