In response to anti-abortion laws in Texas and across the country, Assembly Member Rebecca Seawright joined Governor Kathy Hochul this week for an announcement of an agenda to affirm abortion rights and cement New York's status as a place to welcome women seeking abortion care.

As part of these efforts, the Governor is directing State agencies to coordinate a statewide public information campaign, including the development of a patient bill of rights, in coordination with stakeholders. Memorial Sloan Kettering Cancer Center (MSKCC) is seeking to convert the heating system from steam to lower temperature hot water, to improve the safety, reliability, controllability, and energy efficiency of an aging infrastructure. P.W. Grosser Consulting has prepared a Public Participation Plan on behalf of Memorial Sloan Kettering Cancer Center to inform the public of upcoming construction activities at the facility that will require the installation of several rooftop boilers and combined heat and power engines, and of the NY State Department of Environmental Conservation Air Facility Permit application process.

At this meeting, an overview of the scope of work, potential impacts, and proposed mitigation measures will be discussed as it pertains to the installation and operation of the combined heat & power systems and boilers at MSKCC, will be presented by a representative from the project team. The meeting is open to all residents in the Lenox Hill area near the MSKCC campus. Following the presentation, the floor will be opened to the public for questions, comments, and concerns.

If you have any questions regarding the meeting, please contact the **Memorial Sloan Kettering Cancer Center Project representative, Doreen Carlson** by phone at (631) 589-6353, or by email at [dcarlson@pwgrosser.com](mailto:dcarlson@pwgrosser.com).
