

Tips for Trips: Assemblymember Didi Barrett suggests you stop at 511 NY before you hit the road

ROAD
WORK
AHEAD

“Although construction projects are a sign of New York’s economic recovery, they can make summer travel frustrating. The 511 program is a useful tool to help families arrive at their destination in the fastest, safest way possible.”

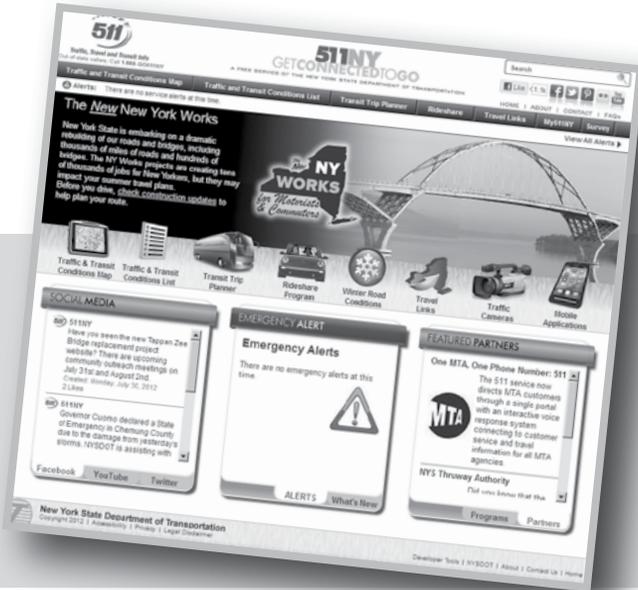

Didi Barrett

Check out www.511NY.org before you leave to save time on your trip!

New York is getting back to work – and with it comes construction projects across the state. **511 NY** is a useful tool to help travelers plan the most efficient routes and get them where they want to be.

The program provides travelers with information on:

- Traffic & Transit Conditions
- Rideshare Programs
- Road Conditions
- Travel Links
- Traffic Cameras
- And mobile apps allow travelers to check this information without a computer

For more information about this or any other important community issue, contact our office at:
