Say **NO** to higher utility bills!

Dear Neighbor,

National Grid recently announced that it is looking to raise rates, a move that will negatively impact families and businesses across Upstate New York. Residential electric customers could see their monthly bill increase by \$8.93 – an 11 percent hike – and gas customers would see a monthly increase of \$8.70 – a 12.5 percent increase. The proposed hike would have a devastating impact for far too many families. That’s about \$210 more each year that households, already struggling to get by, would have to come up with.

In a letter to National Grid, I called the company’s proposal “unacceptable” and urged its immediate withdrawal. In a similar letter, I urged members of the Public Service Commission to consider the impact of utility rate increases and to reject the proposal. You can help me by adding your voice. Say NO to National Grid rate hikes today! Simply complete the form below and return it to my office.

As your Assemblyman, I’m ready to fight tooth and nail to stop National Grid’s rate hikes from hurting our families and businesses.

Sincerely,

Assemblyman Angelo Santabarbara
Representing Albany, Montgomery and Schenectady Counties
