# New Yorkers Deserve to Know Where Our Tax Dollars are Going

Holding our state leaders accountable and ensuring our hard-earned tax dollars are being used effectively needs to be a top priority in the state Legislature. That's why Assemblywoman Mary Beth Walsh is working to increase government transparency and pushing for the big changes we need to clean up Albany, including:

- § Increased oversight over taxpayer-funded development projects (A.5657A)
- § Increased reporting requirements to ensure we know how our money is being spent (A.8175A)
- § Increased financial disclosure requirements to ensure our politicians can't be bought (A.5864)
- § Pension forfeiture for public officials who have abused their power (A.5864)
- § Campaign finance reforms to prevent 'pay-to-play' politics in Albany (A.5864)
- § Reduced tax burdens on our state's hardworking business owners (A.3009)
