# ENSURING SAFE COMMUNITIES

**Orders of Protection Expanded:** Immediate family members or household members of named victims, regardless of age, can receive orders of protection. (A6026)

**Crackdown on Organized Theft:** Creates the crime of coordinated petit larceny and makes defendants eligible for bail to tackle organized retail theft head-on. (A8594)

**Funding for First Responders:** The "Public Safety Investment Act" provides vital law enforcement and firefighter grant funding, allowing for better resources to keep our neighborhoods safe and relieve financial pressure on our town budgets. (A8240)

**Enhanced School Security:** Allows retired police officers to be hired as special security officers in schools, bringing expertise and peace of mind to our educational environments. (A4554)

"Ensuring public safety isn't just a responsibility; it's a fundamental commitment. In our district, it's about more than just enforcing laws, it's about guaranteeing the security and well-being of every resident, family, and child. That's why initiatives like expanding orders of protection, cracking down on organized theft, and enhancing school security are crucial. These efforts underscore our dedication to keeping our community safe and secure."

- Brian Miller
